ALFRESCO'S CORE CAPABILITIES

Document Management – Brings company content under control. Important files—like legal contracts, marketing assets and engineering documents—are easily found, shared and secured.

Enterprise Collaboration – Share information and work effectively with people inside and outside the organization, including partners and customers. Collaborate more effectively on projects, improve partner engagement and improve vendor management.

Process Management – Automate and optimize critical business processes such as invoice processing and expense approvals. Reduce costs and gain new operating efficiencies.

Mobile Content Management – Alfresco provides a secure, reliable, flexible solution for working with corporate content outside the office. Employees can upload, view, edit, approve and share important enterprise documents right from their mobile devices.

Information Governance and Compliance – Strengthen compliance with seamlessly integrated cradle-to-grave records management. Simplify the content control required to meet government regulations, corporate policies and audit requirements.

HOW RIVET LOGIC CAN HELP

Strategy – Align business goals with Alfresco capabilities. Configure for success, and customize for added value.

Implementation – Implement your Alfresco solution following best practices, while seamlessly integrating Alfresco into your enterprise.

Content Migration – Migrate existing content from legacy content repositories and/or file systems into Alfresco seamlessly and easily.

Deploy & Manage – Deploy Alfresco on-premise, in the cloud, or as a hybrid. Ensure a smooth production rollout with post-production support or managed services.
