# CONSULTING SERVICES
LIFERAY SOLUTIONS FOR HEALTHCARE

BUILD A CONNECTED HEALTH SYSTEM

Today's digital world is all about creating meaningful user experiences, and for the healthcare industry, this means creating a connected health system that engages all stakeholders – patients, members, providers, and employees. To accomplish this, business users need to be empowered with the right tools for engagement, and selecting the right technology is critical to the success of your initiatives.

Liferay Portal provides a versatile platform for building intuitive, engaging digital experiences for a wide variety of healthcare IT use cases – Patient Portal, Member Portal, Mobile Apps, Enterprise Collaboration, and more.

Rivet Logic's team of experienced consultants can help implement tailored solutions that cater specifically to your unique business needs to drive maximum engagement.

LIFERAY PORTAL – MULTIPLE SOLUTIONS FROM A SINGLE SOURCE

Liferay Portal is an enterprise web platform for building business solutions that deliver immediate results and long-term value. It empowers healthcare enterprises with the ability to create dynamic, omni-channel digital experiences through robust capabilities including:

CONTENT AND DOCUMENT MANAGEMENT

- Manage content, documents, and digital assets with advanced metadata
- Native Workflow engine with an easy-to-use Drag and Drop UI designed for business users
- Audience Targeting provides ability to target specific content to the users behavior or attributes

INTEGRATION AND AGGREGATION

- Open API architecture, multiple integration points
- Integrate to any application, to any level of complexity
- Advanced development tools to enable user-friendly wizards-driven development

PERSONALIZATION

- Personalized end-user experience through user-customizable areas
- Administrators have control over what can be displayed

MULTI-TENANCY

- One Liferay instance, multiple sites, multiple tenants
- Ability to share or segregate data and users
- Sites can be hierarchical and be organized

SEARCH AND NAVIGATION

- High-end search engine support – Solr, Google, Lucene, ElasticSearch
- Native faceted search
- Rich metadata framework to drive search indexing

AGILE DEVELOPMENT METHODOLOGY

To ensure a successful implementation, Rivet Logic employs an agile development methodology. We work closely with each customer throughout the project to ensure all milestones and deliverables are properly met.

USABILITY & UI DESIGN

Usability is critical to a solution's adoption. Rivet Logic will work closely with your UI/UX design team, whether it's internal or an external agency, to ensure a smooth implementation following all technical best practices.

RESOURCES

At Rivet Logic, all of our professionals have extensive experience developing, deploying and supporting enterprise solutions. In everything we do, we focus on adding value to our clients' businesses and organizational goals. We take pride in our extensive technical expertise, and we understand that it is only of value when we deliver bottom-line results to our clients.
