

MOBILE SOLUTION: Mobile People Directory App

On-the-go Accessibility

The Mobile People Directory app for iOS and Android allows your Liferay Portal users to easily access the complete user registry from anywhere.

PACKAGE DETAILS

COST: Contact us for details.

The Mobile People Directory application package includes everything necessary to deploy the app on your Liferay Portal, as well as customizing it with your corporate look and feel.

- Re-skin the application with your corporate color theme
- Build custom splash and about screens using your corporate branding
- Label app with your custom icon or have us create one for you
- Build and sign production ready binaries*
- Upload to iTunes Connect and Google Play store, or deliver binaries to you for private distribution
- Deploy necessary portlets to your Liferay environment
- Configure your Liferay environment to expose necessary APIs

* Requires customer provided Google Play Store account (free) and Apple iTunes Enterprise Developer Account (\$299).

FEATURES

- Syncs and stores the Liferay User Registry data on the device, allowing for app usage even in spotty network conditions
- Search for people by name, screen name or email
- One touch to call, Skype or email a contact
- Favorite function allows for quick access to frequent contacts
- Requires user authentication on Liferay service
- Data encrypted for security
- Supports Android devices and tablets running 4.1 (Jelly Bean) and up
- Supports iPhone and iPads running iOS 8.x and up
